

Fellowship in Interventional Headache Neurology (FIHN)

COURSE CURRICULUM

Duration: 1 month (4 weeks)

VIDEO LECTURES

1. Preparatory Course and FIHN Exam
2. Neck Pain and Headache
3. Fluoroscopy Guided Procedure for Head and Neck Pain
4. Nerve Blocks
5. Medical Acupuncture in Headache
6. How To Prepare Botulinum Toxin for Injections
7. Case Discussion

STUDY MATERIALS

1. Botulinum Toxin Injection Preparation
2. Approach To Headache and Facial Pain
3. Additional History-Taking and Examination
4. WHS-MCH1 Classification
5. Ultrasound Sonoanatomy for Interventions
6. Sensory Topography of Head and Neck
7. Intravenous Infusion Protocols for Headache Disorders
8. Nerve Blocks
9. Format For Clinic Data Acquisition

ON-SITE LIVE LECTURES

Lecture 1: Clinical Approach to Orofacial Pains- Case based Learning

Lecture 2: Local Anaesthetics, Syringes and Needles for Diagnostic and Therapeutic Nerve Blocks, Anatomy of the V2 Trigeminal System with Surface Anatomy Localization

Lecture 3: Principles of Ultrasound. Anatomy of the Cervical System and its Sonoanatomy

Lecture 4: Neuro- Ophthalmological Approach to Idiopathic Intracranial Hypertension

BREAKOUT

Station 1: Nerve blocks in Migraine, Trigeminal Autonomic Cephalalgias, Burning Vertex Syndrome, Cranial Neuralgias

Station 2: Nerve Blocks of V2 Facial and Oral Branches.

Station 3: Sonoanatomy based Interventions of Cervical and V2 branches

Station 4: A and B Mode Ultrasound- ONSD in Headache Evaluation

Lecture 5: Botulinum Toxin in Headaches. What to Do When Multiple Modalities Fail- Lessons from a Complex Case

Lecture 6: Anatomy of the V3 Trigeminal System with Surface Anatomy Localization

Lecture 7: Sonographic localization of V3 branches, Cervical Plexus

Lecture 8: Uses of Optical Coherence Tomography in Headaches

Station 1: Botulinum Toxin in migraines, Trigeminal Autonomic Cephalalgias, Burning Vertex Syndrome, Cranial Neuralgias

Station 2: Nerve Blocks of V3 Facial and Oral Branches

Station 3: Sonoanatomy based Interventions of Neck and Shoulder Muscles

Station 4: ONSD Interpretation, B Scan Reporting
